SUMMARY

As a Full Stack Developer, I have developed and deployed diverse applications across multiple tech sectors. My passion for problem-solving has driven me to continually learn and improve my skills, making me a quick learner with a strong initiative to tackle complex challenges.

SKILLS

HTML5 | CSS3 |JavaScript | React.JS | MySQL | MongoDB | GraphQL | Express.JS | Node.JS | Bootstrap | Material UI | Jquery | Git | Java | Python | C++

EXPERIENCE

Senior Tutor @ 2U/edX - *FT*

April 2022 - PRESENT

- Completed over 800+ tutor sessions
- Responsible for 200+ students
- Tutor students 1:1 weekly, to discuss and go over web development concepts that they may be struggling to grasp.
- Help guide students through problem solving on their own.

PROJECTS

First Class Paint LLC - React   Live | Repo

First Class Paint LLC is a local business that serves the east coast in all residential/commercial painting needs. Their web application was built to have a modern feel, while also being simple and straight to the point.

MovieWiki - MERN   Live | Repo

MovieWiki uses the TMDB API to pull data from 786,350+ Movies, and 145,590+ Shows. You can find desired content through search, or by looking at the two main pages and seeing this week's most popular selections.

EDUCATION

University of North Carolina at Chapel Hill - *Certificate*

May 2021 - November 2021

Full Stack - Web Development Bootcamp
